DETAILED ACTION

The reply filed 6/5/06 consists of amending claims 1,2,14,20,31 and remarks related to rejection of claims.

Response to Arguments

Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1,8,10,20 are rejected under 35 U.S.C. 102(e) as being anticipated by
MOTEGI et al. 20040010726.

Regarding claims 1, 8, 20.

MOTEGI discloses a semiconductor circuit device, comprising a circuit block including a plurality of components each of which is a gate circuit, wherein at least one of the plurality of components is supplied with a voltage having a value different from that supplied to the other component or components (abstract).

Regarding claim 10.

MOTEGI discloses the semiconductor integrated circuit device of claim 8, wherein at least one of the plurality of power lines connected to the respective ones of the plurality of components is separated so that the regions corresponding to the values of the voltages to be supplied to the components are defined (see figures).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over MOTEGI et al. 20040010726.

Regarding claim 2.

MOTEGI discloses the semiconductor integrated circuit device of claim 1, including power supply pads wherein different voltages are supplied to blocks of circuits.

MOTEGI is silent wherein one of the power supplies is for supplying a predetermined voltage and the other power supplies are for respectively supplying voltages stepped down from the predetermined voltage.

The techniques of stepping down a voltage from a predetermined voltage are well known to a person having ordinary skill in the art.

It would have been obvious to one of ordinary skill to step down a predetermined voltage to a lower voltage to generate a lower supply voltage for a circuit bock requiring lower supply voltage.

Allowable Subject Matter

Claims 3-7,9,11-19,21-35 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
